

INSTITUTIONAL MEMBERS

The International Coalition of Sites of Conscience is the only worldwide network specifically dedicated to transforming places that preserve the past into spaces that promote civic action. As a network of more than 300 members in 65 countries, we engage tens of millions of people every year in using the lessons of history to take action on challenges to democracy and human rights today. Through powerful participatory programs that bring people together across difference, the Coalition is building the global movement to connect past to present, memory to action.
